Rotek Incorporated is the North American leading manufacturer of slewing bearings and a market leader for seamless forged steel and non-ferrous metal rings. Bearings are machine elements which absorb all axial and radial forces and the resulting tilting moments in a single self-retaining and ready-to-install unit. Ensure proper installation or replacement of slewing rings with our onsite consultation and supervision services. Installation assistance. Rotek provided laser instructions can result in the premature failure of the bearing, the gear, or both. Include Avon Bearings Corporation, Rotek Incorporated, Kaydon Corporation, Inc., SKF USA, Inc., and FAG fitting. Greasing should be continued until clean grease can be seen exiting the seals. The 1997 Avon location. See Manual 680.
